Application

Dear I am in the 2nd year of BTS (Higher Technician Diploma) in Marketing & Multimedia, I am 26 years old. I live in Sousse, Tunisia. At the moment, I am looking for an internship.

Last year, I did a two-week technical support training in the field of dental radiology with the international company Vatech in collaboration with a call center AltraCall in Sousse. In addition, I made a 2-month multi-skilled internship in a bank branch of the International Arab Bank of Tunisia. In November 2019, I graduated as a Professional Technician in IT of Management. For my training, I studied experimental sciences before the patent that I have just obtained.

I have level C1 in French also I have fluent English. I have a perfect command of computer softwares, you will notice that it is part of my training as also I have knowledge in management same in Digital Marketing and graphic design.

Also my rigor, my discretion and my seriousness are assets that will allow me to live up to your expectations.

I have had a type B driving license since 5 years. Able to work in a group while being autonomous.

Im interested to do my internship in your company to discover a different work environment and learn how to manage multiple tasks in a big company.

In the meantime, please receive, Madam, Sir, my best regards.
