I am a trainee engineering project manager. I work on the chemist projects and implement manager tools like risk manager or charter. My experiences in the professional and personal world have taught me different techniques and aspects to increase my teamworking skills. I am curious and enthusiastic to discover more about the physical facts and management methods.

PROFESSIONAL EXPERIENCE

2020-2023 - Engineering project manager production-study apprenticeship | in FAREVA, Val-de-Reuil (France)

- Implementing a project charter to avoid missing the project goals.
- Implementing risk management standards to avoid the reappearance of accident or time losses.
- Planning the construction of a new aseptic building and lead meetings to follow the progress of construction team

2020 - Engineering project Lean internship in nuclear Rotor production | in General Electric , Belfort

- Implemented 6S workshop (Lean approach) in the production to increase the quality product and the safety of the worker.

2018 -2020 - President of the show charity| LES ENFANTS DE BORVO

- Managed a team and the resources to create and make the show in front of 300 people.
- Worked in team to create a new choreography to hear the ideas of everybody
- Knew to take a decision or solve a problem in a critical situation

EDUCATION

2020-2023 CESI University Industrial Engineering masters, Rouen (France)

- Modules included physical and mathematics bases, and industry management methods.
- Develop professional experience with the alternances

2017-2020 CESI University of Engineering, Strasbourg (France)

- Integrated technological preparatory cycle
- Production and management specialty

2018 High school certificate specialising in sciences, Alfred Kastler High School, Guebwiller (France)

- To Learn mathematical, physical specialty
- Talked with a German student in correspondence for 3 years

ACTIVITIES AND ACHIEVEMENTS
