Dear Sir or Madam,

I am a second year student in a Bachelor's degree in Business Management. I am looking for a practical English or bilingual internship integrated in my training for a period of 4 to 6 months, starting in January 2023.

In order to prepare myself concretely for the business and management professions, I am looking for a company that will allow me to combine my theoretical education and practical training. Curious, ambitious and motivated, I have the qualities of adaptation essential to the success of an internship.

The reputation of your company has attracted my attention: an internship with your team would be the perfect opportunity to put into practice the concepts I studied during my training and to offer my future employers a professional experience in line with my choice of course.

I remain at your disposal for any further information on my application or the content of my training and I will also be reactive for any interview request, on the phone or in your offices.

I look forward to hearing from you. Please accept, Sir or Madam, my sincere regards,

VENDERSCHURET Iris
