

Subject: Application for a 3-month contracted end-of-study internship in marketing

Dear Miss, Sir,

I am currently studying at the University of Paris-Est Créteil (UPEC), in the third year of an AEI degree with an option in International Trade. I am looking for an internship of a minimum duration of three months starting on 8 April 2023. I am looking for an internship in the following fields: import-export, marketing, management or logistics.

I am looking for an internship in the following fields: import-export, marketing, management or logistics. These are the fields I appreciate the most in a company and in which I could develop my knowledge and skills if you give me the opportunity.

It is therefore quite natural that I turned to your company after my research by applying in your sector of activity which corresponds to my future professional inspirations which are the fields I mentioned before. I would be more than honoured to be able to perfect my knowledge, develop my skills and above all, discover the business world abroad by joining your team as an intern. I love communication and marketing and combining these two fields in a company like yours would make it much easier for me to develop my qualities and skills.

My team spirit and my ability to adapt quickly are the two major assets of my present application. I am able to fit in with a team that is already set up without having problems adapting which could slow down the team, as I did during my time at Pizza Hut, where I had to change sales outlets several times and I therefore had to adapt very quickly.

Furthermore, having played football for a few years, I am an ambitious person who wants to take a team with me. Listening and helping others are part of my values which could be an asset for my integration in your company. Especially since the language barrier is not an obstacle for me. I have a good knowledge of English and a better level of Spanish, which could be an asset for you and above all a way to help me progress by taking me out of my comfort zone as I did when I studied in Spain for a year.

For all these reasons, I would like to ask you to give a favourable reception to my application with a view to joining your company.

Motivated, courageous and persevering, I am committed to being an exemplary trainee both within your company and in my future career.

I look forward to receiving your reply.

Zacharia HABABA
