Energy, Risks, Environment Apprentice Engineer

## SUMMARY

Currently in the fourth year of engineering school at the INSA Centre Val de Loire (Bourges) in Energy, Risks and Environment (Engineering risk option), I am looking for a company for an internship of 8 weeks. I would like an internship that will allow me to immerse myself in a new work environment and develop my skills of adaptation, communication and understanding.

At this time, I am doing a work-study program with EDF, in a nuclear power plant.

## EXPERIENCE

- 2021 - 2024** **ELECTRICITE DE FRANCE (EDF)**  
 Chooz
  - EHS Apprenticeship - in progress - as a risk prevention engineer in a nuclear power plant.
- 2019 - 2021** **ELECTRICITE DE FRANCE (EDF)**  
 Chooz
  - Apprenticeship as a risk prevention and radiation protection technician, in a nuclear power plant.

## EDUCATION

- 2021 - 2024** **INSA CENTRE VAL DE LOIRE**  
 Bourges
  - Energy, Risks, Environment engineering - in progress
  - During my first year at INSA I expanded my knowledge of occupational health and safety and I also studied engineering sciences.
- 2019 - 2021** **CFA LA MALGRANGE**   
 Thionville
  - BTS Control of ionizing radiation and application of protective techniques
- 2017 - 2019** **LYCEE FREDERIC OZANAM**   
 Lille
  - BTS environmental service occupations

## HOBBIES

Travelling, reading, sports (yoga, hiking, fitness), personal development.
