Dear Mr/Mrs

Helpstage

Montréal, QC, Canada

I am actually completing the bachelor in management at Audencia business school in Nantes, France. During this bachelor's degree, I have the chance to do an internship of 16 to 24 weeks between January and may in the company and country of my choice. This is why I am writing to apply for an internship in your company.

During my internship in SoSac in 2018, a company that creates recyclable bags and food products for the Jewish community, I collaborated with the marketing team to optimize their website and we sold 3% more products than the previous month. This internship improved my capacity to work as a team and to adapt myself to new people and new working methods.

I am particularly interested in working for your company because your company and I have the same ambition, we want to become the best of the best. I would strongly appreciate bringing my skills and my motivation to your teams.

please find my enclosed a copy of my CV thank you for considering my application and i look forward to hearing from you.

Yours faithfully,

Jude Barret
